*W*e are thrilled with our gazebo. The quality, fit and finish are excellent. The delivery was also excellent!

Thanks,
Kevin and Diane

Our Philosophy

Adding a Red Rose Selection structure to your property is a great way to increase the value of your property and create a setting that you will be sure to enjoy for years to come. It is important to us that you not only enjoy your structure, but that you find the ordering process pleasant as well. It is with that in mind that we have made this guide to selecting your structure as simple and straightforward as possible. But don't let its simplicity keep you from your dream structure, because we love doing custom jobs. Making your dreams become a reality doesn't have to be difficult, and it's our goal to make sure it's not. We are here to help!

What our customers are saying

*J*ust a short note to tell you all how pleased we are with our new carport. When I came to see what choices we had, you guys were very accommodating and worked with me to make sure I would be happy as a customer. Well we took one of the pool house gazebos and made it a bit larger..... No, a lot larger. Thank you for having a building design engineer look at our plans to make sure our carport would be structurally sound. We have used your company before and were pleased with the finished product. Everyone that stops by is amazed at the craftsmanship of this pavilion. We thank you for being so professional and working along with us.

Fondly, Ben & Debbie

*M*y wife and I had a fantastic experience purchasing our pavilion! We came to them with a project in mind and they made it a reality. We asked them to design a custom structure for our swimming pool and the results are tremendous. The staff were accessible, knowledgeable, and friendly. The project was completed on time and the quality of the craftsmanship is second to none.

Sincerely, The Davidov Family

*Not seeing
what you are
looking for?*

No Problem!

We are happy to work with
you to create a custom gazebo
that is uniquely yours.

Standard Features for the Vinyl Gazebo

1. Louvered cupola with hole for vent.

2. 2x4 rafters 16" on center (double at corners).
Topped with $\frac{7}{16}$ " exterior sheathing, 15# felt,
and 30 year architectural shingles.

3. White vinyl siding is used on the interior of the
roof to create a lasting, maintenance-free finish.

4. Half-moon braces.

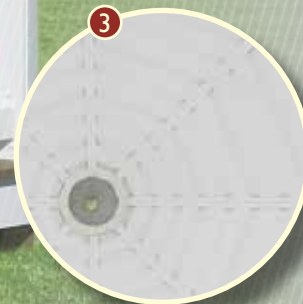

5. 4x4 posts with select pressure-treated solid
wood inside.

6. Top railing is constructed using two 2x4s on
edge and straight square spokes (Madison
spokes pictured).

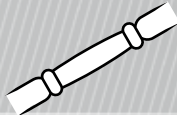

7. Evergrain composite floor screwed down to
2x6 pressure-treated joists at 16" on center.
Gazebo is built on 4x4 treated runners (not
included on units built as kits).

8. 30 $\frac{1}{2}$ " bottom railing with straight 1 $\frac{1}{4}$ " square
spokes (Madison spokes pictured).

9. All fasteners are either stainless steel or ce-
ramic coated.

Economy Vinyl Gazebos

12' Octagon

National Blue Shingles • Gray Floor

The Economy Vinyl Gazebo

was designed to give you the option of a more cost effective gazebo, without sacrificing structural strength or quality.

The economy gazebo does not have spokes in the top rails like the standard gazebo. A 2x4 hand rail in place of the standard T-rail, no cupola, and stick on screw covers rather than snap caps.

12' Octagon

Rectangular Gazebos

12' x 16' Rectangle
Dual Gray Shingles • Unstained

Standard Features for the Wood Gazebo

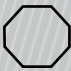

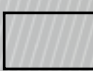

1. Cupola included with hole for vent.
2. #1 pressure-treated southern yellow pine, hand-selected for best appearance.
3. Half moon corner braces for lateral strength and to resist high winds.
4. Exposed double main rafters. 1x6 tongue and groove pressure-treated ceiling covered with felt paper and 30-year architectural shingles.
5. Ceramic fasteners.
6. 5 $\frac{5}{8}$ " / 12" pitch roof.
7. 2x6 floor joists 16" on center with $\frac{5}{4}$ " x 6" pressure-treated decking.

An Economy Version
of this gazebo is also available. The differences include 2x4 floor joists, no spokes in top rail, treated plywood roof underlay and no cupola.

14' x 14' Vinyl Pavilion

12' x 14' Vinyl Pavilion

The Vinyl Pavilion is constructed of SYP and coated in high quality vinyl. The pavilion is supported by 8" square columns with corner trim and post skirts. The pavilions are built to be attached directly to a concrete pad or deck using powder-coated anchor brackets. The headers are built with 2x10 ply SYP, which can span up to 18' without sagging, or, with optional Paralam engineered beams, can span up to 30'. Closed corner braces add stability in high wind. The roof is built to a 5 $\frac{1}{8}$ " pitch and has 10" overhangs. It is constructed using 2x8 rafters, exterior grade sheathing, and then protected with felt paper and 30 year architectural shingles. The interior ceiling is finished in white vinyl siding making the pavilion maintenance free on the inside and out. All of the aspects of the pavilion come together to create a look and feeling of grandeur.

Aranda Pavilion

STANDARD FEATURES

- Arched Vertical Bead Board
- Vinyl Headers on the inside and out
- Dental Moulding
- 12" Overhang With Vinyl Drip Edge Detailing
- 7 Pitch Roof
- 8x8 Posts with Post Trim Detail

Yardscape By Unique Construction

16' x 24' Wood Pavilion
Rustic Cedar Stain

Our wood pavilions are constructed using #1 treated SYP that is hand-selected for the best appearance. We use laminated 5x5 posts that provide structural integrity, and prevent warping. Triple-ply 2x8 headers span up to 16', and half moon braces provide lateral strength in high winds. The roof is constructed using pressure treated 1x6 tongue and groove SYP, followed by felt paper and 30-year architectural shingles. We can also paint and stain your pavilion using one of our standard finishes, or leave it unfinished.

*R*ed Rose Selections recently constructed a pavilion on my property. The pavilion had to be strategically placed and assembled to fit into a very unique and challenging spot. The crew arrived on time and completed the project in one day as promised. My husband and I were very impressed with the attention to detail and quality in every phase of the project. We would highly recommend them to anyone.

Sincerely, The Harrisons

Woodanda Pavilion

I just wanted to let you know that we are very happy with our pavilion. I'm also very happy with the group of builders. They were hard at work, polite, and friendly. I consider the pavilion one of our best buys since we'll get a lot of use out of it.

Thank you, Nonglak and Steve

Pool Houses

This past summer my wife and I purchased a pool house to set up at our home. The builders arrived when they said they would and immediately set to work. They were polite and tireless. All the work was done in a professional manner, and exceeded our expectations. In the midst of their work, we decided to make a change in the building, and the team was very cooperative, and helped us to accomplish these last minute changes. Without hesitation we would recommend them to others.

Thanks, Jim and Dee

Standard Pool Houses

Your choice of shed and deck size. One #3HR 3' half round window single door in center of wall leading from shed to deck. Two 18x36 uninsulated windows (or 24x36 if specified), one on each side of double door. One #56P-5' double door without windows centered on side wall. NOTE: Door and window locations can be readily customized.

The interior of the shed is unfinished with 2x4 stud walls 16" on center backed by 1/2" CDX plywood.

The deck has one opening (specify placement). Vented cupolas are included on all pool houses.

Custom Pool Houses

Beyond the standard configurations, you have the freedom to create the perfect structure for you. Choose from multiple combinations of colors, accents, roofing, posts, railing, doors and window styles. These options allow you to create a truly unique addition to your outdoor experience. Pool houses make great changing rooms or lounge areas. Perfect for small or large areas.
